Information on Maersk East-West Network	3
Service Overview Middle East/India - Europe	4
Service Overview Shuttles	13

Individual mainline service maps can be found in the leading trade section, and the corresponding shuttle service maps can be found at the end of the entire deck.

Maersk East-West Network

Ambition for 90% reliability once fully phased in

Speed via efficiency and optimisation

Global reach with local service

Maersk and Hapag-Lloyd have come together in a long-term operational collaboration – called the Gemini Cooperation.

Our East-West Network will deploy a fleet of 340+ vessels and a combined capacity of 3.7 million TEU.

More reliability and flexibility through the optimised use of our fleets of mainline and shuttle vessels, as well as the global network of transshipment hubs and inland services.

This enhanced agility of the new network enables us to transport your containers on major East-West trade lanes via optimised routes to get ahead of potential delays and disruptions.

MAERSK

ALL THE WAY

Middle East/India - Europe - Highlights

Middle East to Europe

- Our improved Middle East to Europe network offers industry leading reliability and extensive weekly connectivity between India and the Middle East to North Europe and the Mediterranean
