# MAERSK

The screenshot shows the Maersk website interface. At the top, there's a navigation bar with 'MAERSK', 'Prices', 'Book', 'Tracking', 'Schedules', 'Supply chain', and 'Manage'. The main content area is titled 'New sailing options' and shows three sailing options for the route 'Sihanoukville, Cambodia → Lazaro Cardenas (Michoacan de Ocampo), Mexico' on '30 Jun 2024'. Each option lists departure and arrival times, gate-in deadlines, transit times, and vessel/voyage information (HANSA BREITENBURG / 4265). The first two options are marked 'Vessel sold out' and 'Price Restricted'. The third option is partially visible. To the right, there are three dropdown menus for 'Route details', each with a status: 'No longer available', 'Container not available', and 'No allocation remaining'. Below the sailing options is a progress bar with steps: 'Booking Information', 'Select sailing', 'Recommended services', 'Additional details', and 'Review booking'. The 'Booking Information' step is active. Below the progress bar is a section titled 'Your booking details' with a red warning box: 'Amendment requests can only be submitted after the booking confirmation has been issued. Please wait until first confirmation is received before submitting your amendment.' Below this is a 'Location details' section with 'From' (Sihanoukville, Cambodia) and 'To' (Felixstowe, United Kingdom) fields, and 'Inland transportation' options.

Can't revise booking due to:

1. **Vessel sold out:** mean over allocation commitment
2. **No longer available:** mean over allocation commitment
3. **No longer available:** mean no feeder space
4. **No allocation remaining:** mean no space commitment remaining
5. **Insufficient allocation:** the remaining space allocation is not much with increasing volume that the customer requested
6. **Can't submit request amend:** mean just revised booking few minutes and wait Maersk proceed to receive first request then customer can proceed

**THANK YOU**
