### Inland Services

We are on land, as much as we are on water

Your cargo rarely begins or ends its journey at the port. As leading logistics integrator with an unrivalled global network, we offer end-to-end shipping solutions that are second-to-none. Whether you are shipping bananas or steel turbines, we can transport your cargo from origin to destination safely and on schedule.

Our inland solutions span the transportation from you and your customer or supplier. We use in combination of these, to reach the specified yard, store, or warehouse with usual reliability.

**Key benefits**

1. Simpler supply chain, with less point of contact for all your logistic's needs
2. Speed to market, through combining global inland coverage with in-hub landing, ocean options

Classification: Internal

### Warehousing Services

**Fulfillment Centres provide our customers with:**

- Order fulfilment
- Receipt and storage of goods
- Inventory management
- Picking and packing pallets or case
- Regional or domestic Distribution

**Key benefits**

1. Increased flexibility on your supply chain
2. Increased speed to market
3. Reduced stock holding and handling costs

Classification: Internal

### CHB - Customs House Brokerage

**Core CHB Services – Transactional Declaration Processing**

**Import Declarations:**  
Efficient duty-entry management along with document compliance review is driving accurate, timely and compliant import declarations with full governance and control over the merchandise you are importing.

**Export Declarations:**  
Keeping in mind all local government laws and regulation compliant and accurate export filings to ensure smooth merchandise in your supply.

**in-transit Declarations:**  
The first port of arrival is often not the final destination. in-transit declaration filings and managing further move ensure that your merchandise arrives timely at the final.

**Key benefits:**

1. New services and capabilities	4. Rights around your cargo
2. Strong data management and visibility	4. Streamlined processes

Classification: Internal

### Trade Finance

Maersk offers simple digital trade finance solutions to help you with your working capital needs.

A simplified solution that can handle both the flow of your goods and financing at a competitive cost to help you expand and develop your business.

**Key benefits**

1. Single window for flow of goods and money	5. Financing based on goods shipped through Maersk
2. Fast and timely access to capital	6. Balance sheet optimisation
3. Financing solutions for importers and exporters	7. Buyer default risk mitigation through without recourse product
4. Digital platform – zero paper	8. Reliable transportation partner

## Booking agent

The reliable and cost-effective way to manage your export shipment bookings.

This is our core business. Let us invest in the tools and people to provide you with seamless and reliable export processes to get your shipments off to a good start.

Our experienced teams will coordinate with your partners and internal stakeholders to ensure all related filings, documentation and physical movements are effortlessly coordinated to ensure everything ships as planned with the carrier specified, and all exceptions effectively resolved.

Performance dashboards provide real-time overviews of carrier performance (on-time, rollings) and process compliance and performance.

### Key benefits

1. Lower cost per shipment
2. Automated solution
3. Flexible service
4. Flexibility to negotiate and contract with partners
5. Improved Control by reducing parties
6. Productivity increase across the supply chain
7. Management of carrier performance to help providing insights for contract renegotiations
