

Actual Time Departure Guide
Locate Your Cargo Anytime

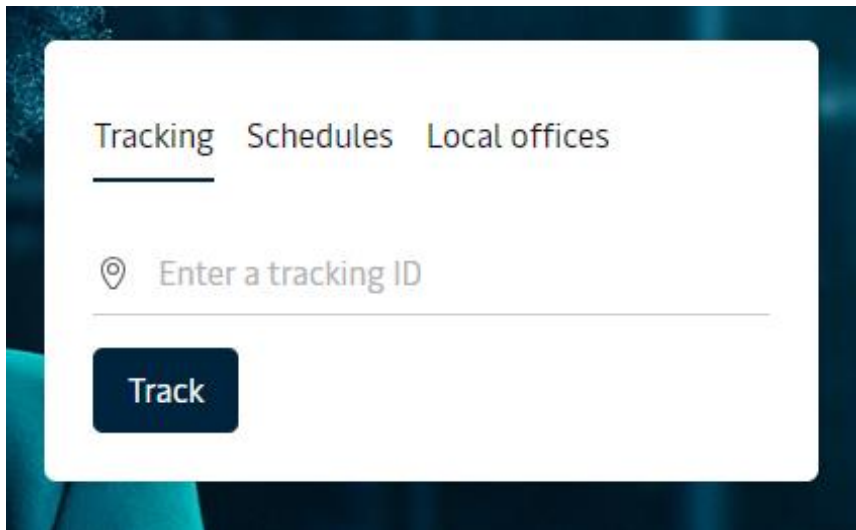

October 9, 2023

Actual Time Departure

In our effort to offer our customer an overall transparent, consistent, and easy shipping experience, we would like to inform you the easier way to find Vessel's ATD (Actual Departure Date) Data.

The information is available in our Tracking feature via [Maersk | Integrated Container Logistics & Supply Chain Services](#)

The screenshot shows a web interface with a dark blue background. At the top, there are three menu items: 'Tracking' (underlined), 'Schedules', and 'Local offices'. Below the menu is a search bar with a location pin icon and the placeholder text 'Enter a tracking ID'. A dark blue button with the word 'Track' in white is positioned below the search bar.

Simply enter your booking or container number and click "Track".

The Solid Blue line indicates the latest container movement. In this case, shipment is loaded and vessel has departed.

 **Estimated arrival date**

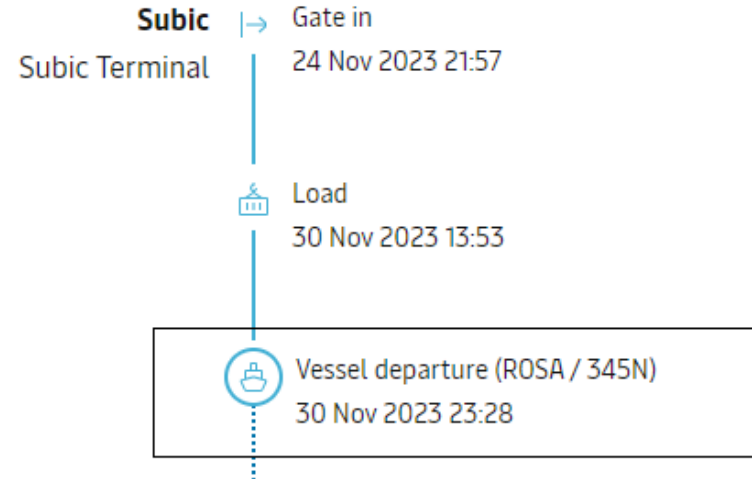

17 Jan 2024 06:00

 **Last location**

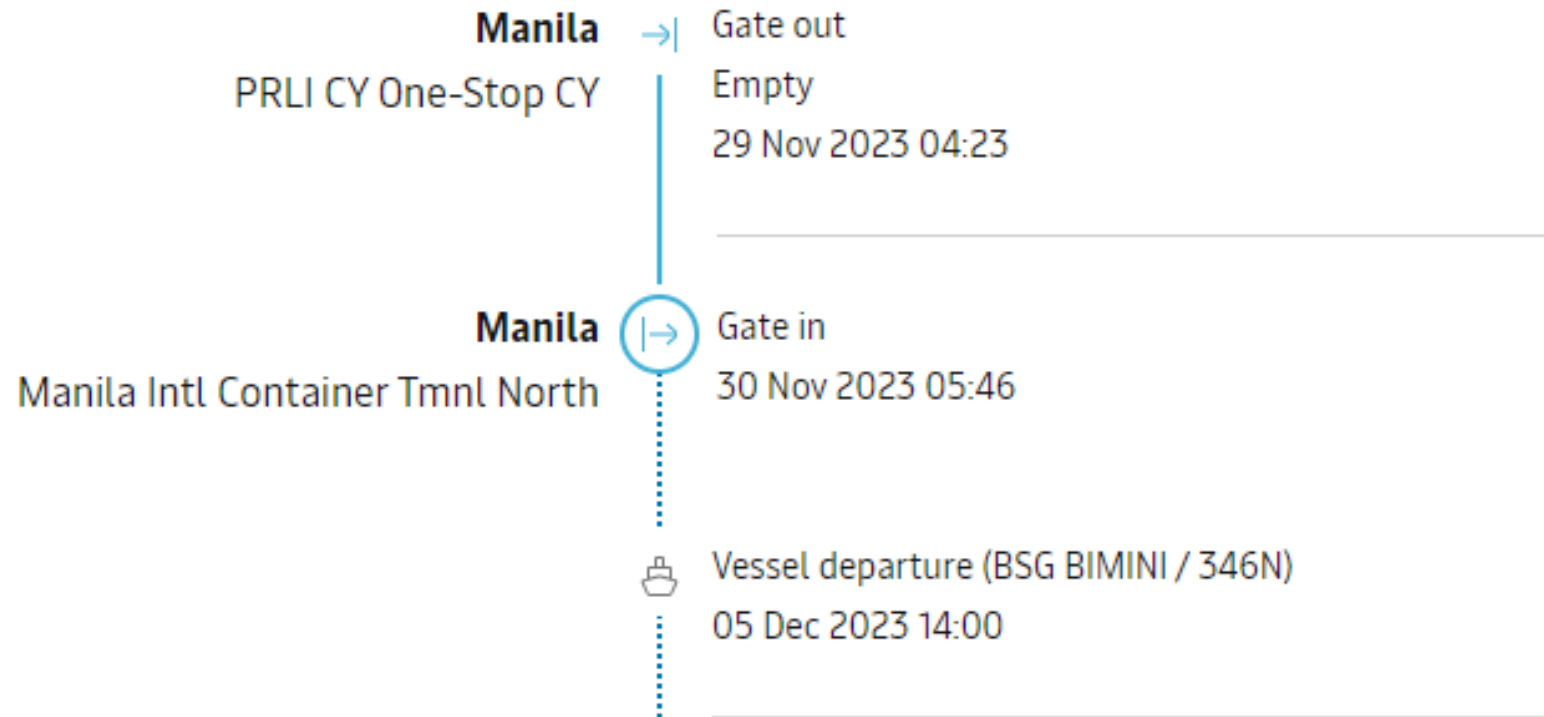

Vessel departure • Subic, Philippines • 30 Nov 2023

[Hide details ^](#)

Note: All times are given in local time, unless otherwise stated.

Meanwhile, the broken blue line indicates the shipment's planned routing. In this case, container is gated in and vessel has not yet departed.

Visit our Maersk website to manage your shipment easily and seamlessly. Rest assured that we are doing our best to maintain valuable customer experience.

We want to thank you for your business and looking forward to continuously serving your global transportation needs.
