

## Container pickup procedure

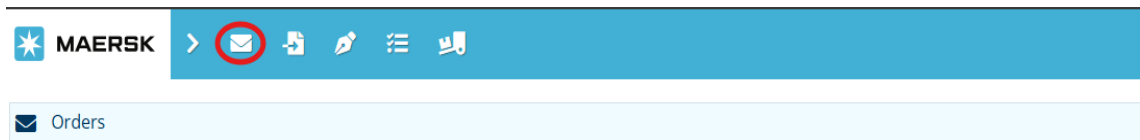

### Using own trucking / rail operator or for stripping operation in CSCT terminal

The application works using the same link for both situations:

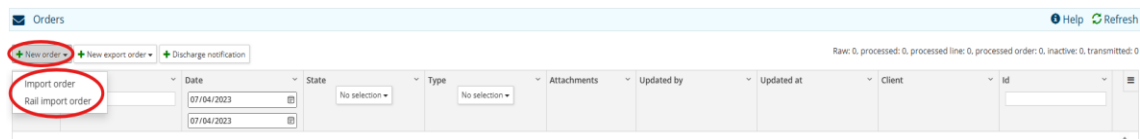

<http://89.43.139.185:8080/operatori/login>

Below you can find the steps to successfully create an order:

1. To access the Orders menu please select the below highlighted button from the control bar:

2. After pressing New Order button, you will be able to select the type of the order:  
*Import order* – pickup using own trucking vendor or stripping operation  
*Rail Import Order* – pickup using own train operator

3. Please complete the *Beneficiary* field
4. Please select the type of order (depending on each case)  
*Import Order* – pickup using own trucking vendor (for this situation the details of the truck will be mandatory)  
*Transboard* – stripping operation inside CSCT terminal

Save Cancel

- For truck import orders, a new window will open and you will be able to select a PIN number corresponding to the time interval in which the container has to be picked up. After this selection, the order will be sent to CSCT terminal. For import train and stripping (transboard) orders, these will be sent directly to the CSCT terminal.

After each step mentioned above, press *Save* to keep the order updated.

(\*) The red asterisk marks a mandatory field.

For each of the presented operations, **100 USD charge (EHI)** will be applicable.
