
The flavors of Alaska deserve to be savored at their freshest.

We'll help you deliver them that way.

You've got dedicated experts and end-to-end services with Maersk; making sure your products get into the marketplace at the right time and in quality condition, so you can feel confident in your shipments. Because at Maersk, we see food differently - at least the transportation of it. We're dedicated to being your logistics partner for the long-haul, ensuring that your valuable seafood arrives on time and receives constant care throughout its entire journey.

*Reduced coverage this rotation

We understand that as an Alaskan seafood exporter, the success of your business relies heavily on being in the right place at the right time - there is little room for error, and on-time delivery is essential. The concern that your products will miss their market or arrive in a quality below that expected by your customers may leave you unsettled.

That's where Maersk's expertise can bring you comfort in the Alaska seafood market. We've invested in the long-term relationships, built the proper infrastructure and organized the dedicated experts and services to get your products into the marketplace when and how you need us to. You can rest easy knowing your valuable cargo is in the hands of a trusted expert.

Weekly Port Call Rotation

Dutch Harbor, Alaska → Yokohama, Japan → Hakata, Japan → Busan, South Korea → Dalian, China → Qingdao, China

Discover the benefits for your business

Reliability

We understand you have a promise to keep, and we'll help you deliver a fresh catch - we know your customers expect no less.

The Right Technology

With years of unrivaled expertise in transporting temperature-sensitive commodities, we've dedicated our experience towards building the world's largest fleet of state-of-the-art reefer equipment. And we'll continue delivering innovations like Remote Container Monitoring (RCM), to allow shippers to track and monitor cargo temperature during transit.

Dedicated Reefer Specialists and Customer Service

Our dedicated global team of reefer specialists will help ensure your goods reach their destination in peak condition. They use their in-depth knowledge to provide constant attention to your goods throughout the journey, elevating your experience to one that is world-class.

The Sustainable Choice

We lead the way in 'doing more with less.' We constantly seek out innovative and commercially viable ways to reduce our environmental impacts, be it CO2 and other air emissions, ballast water, or the materials we use to build our vessels. We consider our efforts to reduce our carbon footprint a responsibility to our shared global future.
