

Have a fruitful journey

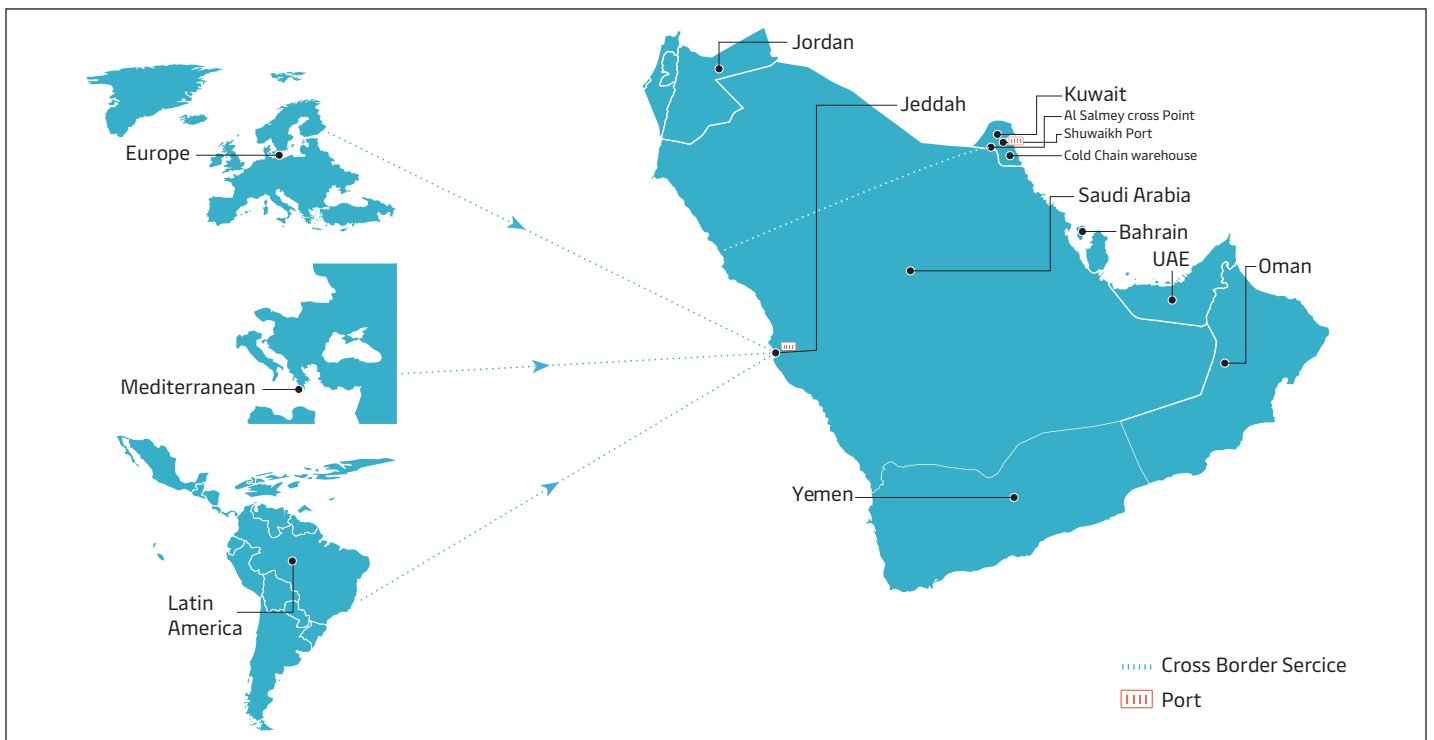

Move your cargo with absolute ease with
our integrated bonded in-transit solution.

When it comes to transporting fruits and vegetables to Kuwait, **an unbroken cold chain is essential to ensure exact condition intended.**

When transporting fresh produce, seafood or pharmaceutical goods, having multiple handovers may increase costs and further delay cargo delivery. At Maersk, we can transport your cargo from origin to destination safely and as scheduled. We don't just offer you ocean transportation, but also bonded customs clearance, and cross-border road transportation services reducing your overall trip time, so that you can deliver your fresh produce straight from your factory to your customers' doors while we take care of a smooth flow throughout your supply chain.

Your cargo's journey from origins to Kuwait **through bonded trucking via Jeddah**

Country	Port of receipt	Transit Time on direct ocean product to Shuwaikh	Transit time on new Intransit Product	Number of days saved on new Intransit product
Ecuador	Guayaquil	45	36	-9
